

## Samsara Blues Experiment "Long Distance Trip"

Official release date: **31.03.2010** as **World In Sound WIS-2010 (Digipack CD) & WIS-3505 (LP)**

This is the first full-length album of the Berlin-based Samsara Blues Experiment (SBE) and it's already a masterpiece! Founded in Summer 2007 by leadguitarist/singer Christian Peters (ex-Terraplane), the band existed for barely more than one year, when they recorded this first longplayer. From the completion of their recent line-up in October 2008, they have already been touring large parts of Europe as well as the US-Westcoast. In this short period SBE have naturally conquered a remarkable number of fans and became a constant in the Heavy Rock-genre. AND although at first glance the music won't appear as anything new - it's that rather oldfashioned kind of Heavy Psychedelic Rock - you'll be blasted by the heavy load of passion, which fills up every song. Might it be for 3 or 30 minutes, SBE don't only love to play this kind of music, they live it! And they won't step back for one single note, until each one of their listeners will breath their groove and, after the final 22-minute ride of "Double Freedom", will just gasp for MORE! A deeper listening will soon reveal the depths that linger within their mystic fusion of Heavy 70s influences, spaced-out Rock, extended Blues Guitar and Oriental Folklore. The first album, aptly titled as a "Long Distance Trip" shows the band from all its shades, often long-terms jamming but never losing their point. See this album as an invitation to let your thoughts flow and explore the depths of your inner self. Are you ready to take the trip, then crank it up all the way!!!

**Line-up:** Christian Peters - Vocals, Electric & Acoustic Guitars, Sitar, Organ, Synths  
Richard Behrens - Bass  
Thomas Vedder - Drums  
Hans Eiselt - Electric Guitar
